Hi Tim,

I believe that I am scheduled to meet with you about the SESD lab swing space that week. I'll copy Scott Sivertsen, who I believe Mark works with on the PFAS methods workgroup. He will be the point person from our lab on this analysis.

See you next week,

Danny

Subject: Strynar Visit

Danny,

Gerald Brunson gave me your name as a starting-place regional point of contact for setting up a visit for our PFC chemist, Mark Strynar. The goal of the visit is to share our expertise in new generation PFC water analysis (e.g. GenX) for possible adoption by your lab. I understand from Becky Allenbach that your Region 4 lab is being asked to provide lab support to address concern from state and local interests within the region. We are hoping to couple this visit with a trip that I am making next week (Mon & Tue, June 26 & 27) if possible. Can you let me know who within the Region can serve as a POC for coordinating this visit?

Thank you.

Tim
